## LA 03 – “NORTH FORK TRIO” HAROLD STACK MOOSE ORIGINAL PAINTING

Harold Stack began his study of the animal form at the tender age of five. This was also when he discovered his talent in the field of drawing. The surroundings in his native New Mexico helped to inspire his love for this craft.

Harold has been drawing and painting for most of his life. Primarily he paints wildlife and other animals. He is known for juxtaposing soft edges with crisp edges in his work, showing off his amazing control and mastery of his craft.

His canvases seem to emit an inner light, creating a soft, lifelike quality to his animals. Harold has also received much acclaim for his accuracy of the animal form.

Harold mainly paints animals from the Utah, New Mexico and Wyoming regions. His passion for the outdoors was fueled by his father and his grandfather taking him hunting at an early age.
